

AFFIDAVIT for Off-lot Systems

PURSUANT TO ISSUANCE OF A **LEVEL 3** OPERATION PERMIT

I (we) (1) _____, who's current **mailing address is**

(2) _____, hereby acknowledges the fact that the Trumbull County General Health District, an Ohio Health District, has approved the installation of an individual aerobic type treatment system (commonly referred to as a Class I system) or the alteration of an existing household sewage treatment system which now complies with current household sewage treatment rules established by the Ohio Administrative Code (O.A.C.) 3701-29 and Trumbull County General Health District (TCGHD) Household Sewage Treatment System (HSTS) Septic Policies for off-lot discharge of sewage effluent **at the following address**

(3) _____, **Township** (4) _____.

I (we) further acknowledge the fact that in order to discharge an acceptable effluent into the environment and to properly operate said system so as not to pollute the waters of the State of Ohio and/or create a sewage nuisance, a monitoring schedule is essential so that the owner has a clear understanding of acceptable performance so the system is not considered out of compliance with acceptable performance requirements recommended by the manufacturer of the aerobic system, commonly referred to as the Service Provider.

Therefore, I (we) state that I (we) recognize, understand and agree to the following special conditions as the owner and/or operator of a household sewage disposal system which discharges effluent off lot.

1. A Level 3 Operation Permit shall be obtained from the Trumbull County General Health District at time of installation or alteration for a fee established by the Board and shall be renewed at the end of each year. No household sewage treatment system which discharges effluent off lot shall be put into operation unless an Operation Permit is in force for perpetuity.
2. In the event the parcel of land is transferred to another person, the Trumbull County General Health District shall be notified immediately of that fact. It is understood that upon transfer of property title, the Operation Permit may be transferred, however, the permit fee shall not be refundable. **Terms and conditions of this affidavit shall be properly disclosed to the buyer of this property.**
3. UPON EXPIRATION OF THE MANUFACTURERS SERVICE POLICY, THE CURRENT PROPERTY OWNER AGREES TO PURCHASE A SERVICE CONTRACT FROM A REGISTERED SERVICE PROVIDER WHICH MUST BE RENEWED AND/OR KEPT IN FORCE FOR PERPETUITY. SERVICE INSPECTIONS MUST BE CONDUCTED ONCE EVERY 6 MONTHS or as otherwise specified by the manufacturer. Copies of all service contracts shall be forwarded to the Trumbull County General Health District upon renewal period.
4. During the life of the Operation Permit, all rules outlined Ohio Administrative Code (O.A.C.) 3701-29 and Trumbull County General Health District (TCGHD) Household Sewage Treatment System (HSTS) Septic Policies or any subsequent legally adopted regulations shall be complied with.
5. Effluent standards as outlined Ohio Administrative Code (O.A.C.) 3701-29 shall be maintained by the Holder of an Operation Permit at all times. This must be verified annually by effluent sampling.
6. The Service Provider and the authorized representative of the Trumbull County General Health District shall be permitted to conduct all mandated inspections and sampling pursuant to Ohio Administrative Code (O.A.C.) 3701-29.
7. All components of the system shall be pumped at a frequency no greater than thirty-six (36) months or when the sludge level exceeds 1/3 of the capacity of the tank. Pump receipts must be submitted to the health department.
8. No person shall alter any of the components of the system as originally installed, nor cover with fill material component risers and/or sampling well.
9. The system shall remain in good operating condition so as not to create a nuisance. In the event that the system is deemed to be creating a nuisance, the holder of an Operation Permit agrees to upgrade or add any necessary components to the system within 14 days of notification by the Health District.
10. Operation & Maintenance (O&M) – The holder of a Level 3 Permit to Operate (PTO) agrees to follow and perform the necessary operation and maintenance on the system as prescribed in this O&M section of the plans.
11. IF ULTRAVIOLET DISINFECTION IS USED, THE FOLLOWING APPLIES:
 1. In regards to the disinfection device, only a certified service provider recognized by the manufacturer shall service the Ultraviolet (UV) lamp. An inspection must occur at 6-month intervals or otherwise as prescribed by the manufacturer.
 2. I understand and agree that the lamp bulb shall be replaced once a year at the owner's expense.

STATE OF OHIO

COUNTY OF TRUMBULL §

I/We, the undersigned, having been duly sworn, say that all statements in the foregoing Affidavit are true. I/We acknowledge and have read and understand the required Operation and Maintenance of the said system.
