A request was made by Mecca Township to determine if this structure was fit for human habitation. Upon inspection on May 15, 2026, the inspector noted the presence of solid water, fire damage and noted that the building had burned to the ground.

MOTION: 26-97 made by Mrs. Salapata, seconded by Mr. Dubos to declare the structure at 6051 Hoagland Blackstub Rd., unfit for human habitation.

Mr. Simon asked if our agency had to declare this structure unfit if it burned? Mr. Wilster responded yes, the Trustees had requested the declaration, and by definition it is unfit for human habitation. Mr. Migliozi added that, if the Board remembers, at a Trustees Association meeting, Atty. Finamore advised the Trustees that they should always get two forms of declaration, one from the fire department and always get one from the building or health department. Mr. Simon stated that he understood, and this is discussion for another meeting, but he feels that they should look at how many of these are done in a year because the landbank tells the townships the same thing and we get a couple hundred of these a year and it takes a lot of our inspector's time and a lot of the staff's effort, and half of them never get addressed again. Mr. Simon stated that he feels that maybe this should be a fee-based service that could be looked at in the future.

RE: Board Report (6/24/2026)

-
- **Accreditation:**
 - **Strategic Plan (S.P.):**

Highlights and Key Takeaways from the 2026 Strategic Planning Survey for
Board Review

The 2026 Strategic Planning Survey received responses from 34 participants, including internal staff (47%), external partners (29%), Board of Health members, and community stakeholders.

- Respondents expressed strong support for TCCHD's mission, vision, and organizational values:
 - More than 94% agreed or strongly agreed that the mission statement effectively communicates the agency's purpose.
 - More than 94% indicated that the vision statement remains relevant and meaningful.
 - Approximately 94% reported that the agency's core values—Integrity, Compassion, Diversity, Transparency, and Collaboration—accurately reflect community priorities and organizational culture.
- Agency programs and services were rated favorably across all major service areas, including Environmental Health, Communicable Disease Control, Epidemiology, Clinical Prevention, Maternal and Child Health, Emergency Preparedness, Quality Assurance, and Community Engagement. Most respondents rated services as either "Good" or "Best."
- The programs identified as most important to the community included:
 - Immunizations
 - Help Me Grow
 - Behavioral Health Services
 - Grant Writing

- Accreditation and Quality Improvement
- Respondents identified the following as the most significant community health concerns:
 - Access to Healthcare
 - Behavioral Health
 - Drug Overdose and Substance Use
- TCCHD was recognized as the lead agency for Maternal, Infant, and Child Health by 76% of respondents and was viewed as a strong collaborative partner in addressing Community Safety and Behavioral Health priorities.
- Overall perceptions of TCCHD remain positive:
 - 73.5% of respondents reported a favorable view of the organization over the past five years.
 - 42% indicated that TCCHD is performing better or much better than it was five years ago.
- Qualitative feedback highlighted several organizational strengths, including dedicated staff, high-quality services, successful program expansion, and strong community commitment.
- Opportunities for improvement identified by respondents included:
 - Enhanced marketing and public communications
 - Workforce development and succession planning
 - Expansion of satellite office and service delivery options
 - Increased collaboration with community partners, including Youngstown State University, Trumbull County EMA, local municipalities, and township organizations to address emerging community needs.
- **Performance Management (PM):**
 - The First Quarter 2026 Performance Management Dashboards continue to be displayed in the mail room.
- **Re-Accreditation Work:**
 - Frank and I continue to hold weekly meetings to review and discuss the proposed updates to PHAB Standards and Measures Version 2026. We have completed our review of Domains 1–6 and will continue evaluating the remaining domains as part of our ongoing accreditation readiness efforts.

- The finalized Public Health Accreditation Board (PHAB) Standards and Measures Version 2026 were released on June 5, 2026. In addition, the Refreshed Standards Crosswalk (Version 2022 to Version 2026) and the Guide to National Public Health Department Reaccreditation were made available. Digital and hard-copy versions of these resources have been obtained and are currently under review in preparation for PHAB's official webinar rollout scheduled for June 23, 2026.
- **Workforce Development (WFD):**
 - The Cultural Calendar for June of 2026 has been posted in the communal area near Room 11 and the Media Room, adjacent to the mailboxes.
 - The next all-day staff training will take place on Friday, June 26, 2026, from 8 am to 4 pm.
- **Quality Improvement (QI):**
 - Members of TCCHD's Environmental Health Division, in collaboration with the Administrative Team, have initiated a Quality Improvement (QI) project focused on the Food Program. The project will utilize the Plan-Do-Check-Act (PDCA) model, along with process mapping and the Five Whys root cause analysis methodology, to evaluate current processes, identify opportunities for improvement, and implement sustainable solutions.
- **Community Health Assessment/Community Health Improvement Plan (CHA/CHIP):**
 - I continue to participate in meetings with all five Community Health Improvement Plan (CHIP) committees. The committees are currently in the early stages of collaborating with the Health Community Partnership (HCP) to standardize priority areas, goals, and objectives through the use of an evidence table developed by HCP. HCP has indicated that this effort is intended to align its priorities, goals, and objectives with those established through the Mahoning and Trumbull County Health Partnership (MTCHP) Community Health Assessment (CHA) and Community Health Improvement Plan (CHIP) process.
